DETAILED ACTION

Applicants' amendment filed 12-26-02 has been entered. Claims 1-5 and 7 are pending and under consideration.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(c) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

(f) he did not himself invent the subject matter sought to be patented.

(g)(1) during the course of an interference conducted under section 135 or section 291, another inventor involved therein establishes, to the extent permitted in section 104, that before such person's invention thereof the invention was made by such other inventor and not abandoned, suppressed, or concealed, or (2) before such person's invention thereof, the invention was made in this country by another inventor who had not abandoned, suppressed, or concealed it. In determining priority of invention under this subsection, there shall be considered not only the respective dates of conception and reduction to practice of the invention, but also the reasonable diligence of one who was first to conceive and last to reduce to practice, from a time prior to conception by the other.

Claims 1-5 and 7 remain rejected under 102(f) or (g) as the issue of priority under 35 U.S.C. 102(g) and possibly 35 U.S.C. 102(f) of the present invention needs to be resolved and is repeated for the reasons set forth in the preceding Official action mailed 9-18-02 (Paper No. 26).

Applicants argue that new declaration adding Li as an inventor has been filed and granted, and Zhao and Saito do not contribute to claims 1-5 and 7 of the present application (amendment, page 2). This is not found persuasive because of the reasons of record. In order to

Art Unit: 1633

remove Zhao and Saito as inventors from the present application, applicants must comply with 37 CFR 1.48(a) to correct inventorship (see **37 CFR 1.48(a) (1) to (5)**).

Conclusion

No claim is allowed.

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
